Re: Reference for HRI

To whom it may concern:

John G. Cooke & Associates Ltd. has recently worked with HRI on the historic masonry restoration project at Upper Buckhorn Lock 31 on the Trent-Severn Waterway. On this project, John G. Cooke & Associates Ltd. provided the design, documentation and construction review services for Parks Canada.

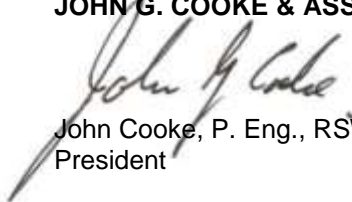

Throughout this project, John G. Cooke & Associates Ltd. has found the expertise provided by HRI to be beyond reproach. They displayed an excellent level of knowledge, skill and understanding of the work and have co-operated with our firm on all aspects of the project. The project was completed within the allowed schedule and respected the allotted budget.

Our firm would not hesitate in recommending HRI to undertake any stone masonry restoration project.

If there are any questions on the above, I would be pleased to respond.

Yours sincerely,

JOHN G. COOKE & ASSOCIATES LTD.

John Cooke, P. Eng., RSW, CAHP
